

OUR TURN

The 2023 season could potentially see new owners at Onaway Lodge. We have made the difficult but timely decision to hand over the reins to Kyle and Trysta Wood.

Kyle and Trysta have two children tAyleah and Jerett that will also become a part of the new Onaway family.

The Wood family has been involved in the resource based tourism industry and the service sector for many years.

We are confident that Kyle and Trysta will carry Onaway into the future. We took our time deciding on the best fit for Onaway and believe our guests will receive the same service they are used to. Kyle and Trysta share the same guest service philosophy as well as the conservation of Lac Seul as we do. We wish the Woods' family continued success and wish them all the enjoyment this new journey will take them on.. They certainly have the best guests/friends to work with.

“GOING FISHIN”

April 2023

We, Kyle and Trysta Wood along with our family are beyond excited and honoured to take over Onaway Lodge from Blair and Kathy. We have lived in the area for most of our lives, and currently own Northland Outpost Company, where we operate two fly-in fishing outpost camps, both a short flight away from Onaway.

We can assure you that we will continue to build upon the exceptional service, facilities and equipment you are accustomed to as a valued guest of the lodge. We can't wait to meet you all in 2023!
